

CONTENTS OF VOLUME 35

Number 1

Special Issue: Stability of Composite Structures

- 1 Preface
- 3 Foreword
- 5 Buckling of thick-section composite pressure hulls
D. GRAHAM (UK)
- 21 Stability characteristics of composite panels with various cutout geometries
R. BAILEY & J. WOOD (UK)
- 33 Effects of load position on the lateral buckling response of pultruded GRP cantilevers—comparisons between theory and experiment
G. J. TURVEY (UK)
- 49 Thermomechanical coupling effects on the dynamic inelastic response and buckling of metal matrix composite infinitely wide plates
R. GILAT & J. ABOUDI (Israel)
- 65 The effect of temperature-dependent material properties on elasto-viscoplastic buckling behaviour of non-uniformly heated MMC plates
E. FELDMAN (Israel)
- 75 Buckling behaviour of laminated composite structures using a discrete higher-order displacement model
J. SIMÕES MOITA, C. M. MOTA SOARES & C. A. MOTA SOARES (Portugal)
- 93 A semi-analytical approach to buckling analysis for composite structures
J. RHODES (UK)
- 101 The buckling of composite stiffened box sections subject to compression and bending
J. LOUGHLAN (UK)
- 117 Multiobjective optimization of laminated plates for maximum prebuckling, buckling and postbuckling strength using continuous and discrete ply angles
S. ADALI, M. WALKER & V. E. VERIJENKO (South Africa)

Number 2

- 131 Experimental study on physical properties of compression molded SMC parts under plane strain condition
KI-TAEK KIM & YONG-TAEK IM (South Korea)
- 143 Stresses and failure patterns in the bending of sandwich beams with transversely flexible cores and laminated composite skins
Y. SHENHAR, Y. FROSTIG & E. ALTUS (Israel)
- 153 Elastic deformation of thick, laminated composite shells
A. W. LEISSA & J.-D. CHANG (USA)
- 171 Effect of impact damage on residual compressive strength of glass-fibre reinforced polyester (GFRP) laminates
G. ZHOU (UK)
- 183 Composite fatigue design methodology: a simplified approach
T. NYMAN (Sweden)
- 195 Elastic properties of imperfectly bonded short fiber composites
D. R. CARROLL & L. R. DHARANI (USA)

- 207 The structural damping of composite beams with tapered boundaries
M. CONI, B. BENCHEKCHOU & R. G. WHITE (UK)
- 213 Linear transient analysis of rectangular laminated plates by a finite strip-mode superposition method
J. CHEN & D. J. DAWE (UK)
- 229 A simple nonlocal damage model for predicting failure of notched laminates
T. C. KENNEDY & M. F. NAHAN (USA)
- 237 Modeling and shape control of composite beams with embedded piezoelectric actuators
P. DONTIREDDY & K. CHANDRASHEKHARA (USA)
- 245 Letter to the Editor
- 247 Announcement
- 249 Contents of Volume 34

Number 3

- 251 Vibration damping using piezoelectric stiffener-actuators with application to orthotropic plates
V. BIRMAN (USA) & S. ADALI (South Africa)
- 263 Procedures developed for self-repair of polymer matrix composite materials
C. DRY (USA)
- 271 Multiobjective material architecture optimization of pultruded FRP I-beams
J. F. DAVALOS, P. QIAO & E. J. BARBERO (USA)
- 283 Parametric design optimization of an entrapped fiber connection
M. W. SONIUS & B. W. TEW (USA)
- 295 Modeling of a cracked metallic structure with bonded composite patch using the three layer technique
S. NABOULSI & S. MALL (USA)
- 309 Delamination in asymmetrically tapered composites loaded in tension
M. R. WISNOM, R. DIXON & G. HILL (UK)
- 323 Numerical study of anchors for composite prestressing straps
S. MARAVEGIAS & T. C. TRIANTAFILLOU (Greece)

Number 4

- 331 Development of the composite third robot arm of the six-axis articulated robot manipulator
YOUNG GOO KIM, KWANG SEOP JEONG, DAI GIL LEE & JAE WON LEE (Korea)
- 343 Low-velocity impact response for laminated stepped beam
K. Y. LAM & T. S. SATHIYAMOORTHY (Singapore)
- 357 Free vibration of laminated composite plates with a central circular hole
CHAI GIN BOAY (Singapore)
- 369 Off-axis transformation of the composite laminate stiffness properties
R. B. HESLEHURST (Australia)
- 375 An investigation of graphite PEEK composite under compression with a centrally located circular discontinuity
B. WHAM II & A. N. PALAZOTTO (USA)
- 387 State-of-the-art review on the design of beam-to-column connections for pultruded frames
J. T. MOTTRAM & Y. ZHENG (UK)
- 403 Models for the elastic deformation of honeycombs
I. G. MASTERS & K. E. EVANS (UK)
- 423 Finite element analysis on deflection control of plates with piezoelectric actuators
CHIEN-CHANG LIN, CHIH-YU HSU & HUANG-NAN HUANG (Taiwan)
- 435 Experimental assessment of debonding damage in a carbon-fibre reinforced plastic sandwich panel by frequency variations
A. PAOLOZZI & I. PERONI (Italy)
- 445 Book Reviews
- 447 Announcement
- 449 Contents of Volume 35
